

## BRIQUETTE **PRESS FORMER**

精密液压压块成型系统

### PRECISION MOLDING SYSTEM

This advanced hydraulic briquette press is a versatile forming solution engineered for high-volume production of compacted food products. Combining integrated mechanical and electrical controls with rapid changeover capabilities, this system delivers consistent density and shape across diverse applications.

先进的液压成型方案，专为食品工业的高产量压块生产设计。机电一体化控制结合快速换模技术，确保了各类产品在不同密度和形状要求下的一致性。

### ADVANCED HYDRAULIC PRESSING TECHNOLOGY / 高级液压压制技术

#### Integrated Control System

机电一体化控制系统

Unified mechanical and electrical design provides precise control over compression force.

#### Variable Firmness Control

可变硬度控制

Adjustable pressure settings achieve customized density and firmness tailored to specific product requirements.

#### Consistent Compression

稳定持久的压缩效果

Hydraulic mechanism ensures uniform pressure distribution for repeatable product quality.

### FLEXIBLE MOLDING CAPABILITIES / 柔性模具成型能力

#### Interchangeable Die System / 可更换模具系统

Unique mold and die mechanism accommodate multiple product shapes and sizes.

#### Quick Tool Changes / 快速换模

Fast changeover design minimizes downtime between production runs.

#### 200mm × 200mm Molding Platform / 200mm × 200mm 成型平台

Generous pressing area suitable for various product dimensions.

### OPERATIONAL EFFICIENCY / 卓越运行效率

#### Easy Maintenance / 维护简便

Simple cleaning procedures support food safety and hygiene standards.

#### Compact Footprint / 紧凑设计

Space-efficient design integrates seamlessly into production lines.

#### Complete System Support / 全系统支持

Compatible with upstream and downstream equipment including material preparation, conveying, feeding, drying, cooling, baking, and packaging systems.

PARAMETER / 参数	SPECIFICATION / 规格
Production Capacity / 生产能力	10 batches/minute
Power Requirement / 功率需求	2.5kW
Molding Platform / 成型平台	200mm × 200mm
Machine Dimensions / 机器尺寸	L 2050mm × W 700mm × H 1720mm
Weight / 重量	800kg

## IDEAL APPLICATIONS / 理想应用场景

Confectionery / 糖果

Compacted Food / 压缩食品

Compressed Biscuit / 压缩饼干

Bouillon Briquette / 高汤块

### BEIJING WINTEC MACHINERY

Engineered for Excellence. Wintec provides high-quality food processing machinery for the global market.
